PROFILE

Architect with 10+ years of residential and commercial experience, from concept and space planning to working drawings, material specification and site coordination. Founder of SSN Architecture, with studios in Lebanon and Türkiye and clients in Türkiye, Lebanon, Dubai and Saudi Arabia. Strong in photoreal 3D visualization and walkthroughs that let clients see the space before it is built.

EXPERIENCE

Founder & Architect — SSN Architecture, Türkiye 2021 – Present

Architecture and interior design studio · Istanbul

- Lead residential and commercial interior projects from concept to delivery: space planning, layouts, material and lighting design.
- Produce working drawings, 3D models, photoreal renders and video walkthroughs for clients in Türkiye, Lebanon, Dubai and Saudi Arabia.
- Manage project costs, material pricing and budgets; coordinate with suppliers and contractors.
- Direct the studio's visual content and social media (Instagram, Behance, YouTube).

Founder & Architect — SSN Architecture, Lebanon 2017 – 2021

- Founded and ran the studio: residential projects, interior concepts, working drawings and 3D visualization.
- Consulted with clients on functional and spatial requirements; delivered drawing sets and renders.

Architectural Designer & 3D Visualizer — Sharp Space Group, Lebanon 2017 – 2020

- Prepared detailed working drawings and material specifications for smooth production.
- Coordinated with vendors and contractors on residential projects; created 3D models, renderings and video animations.

Architect — ABDIIN Group, Lebanon 2015 – 2017

- Coordinated with clients, consultants and contractors during construction.
- Defined functional and spatial requirements with clients; produced and revised drawings in AutoCAD.
